

Awa Lin

WEB DEVELOPMENT

Dear Hiring Manager / Team

I want to work as a web developer for your team. I have been designing websites for years, and I know how to use some design programs as well as HTML, CSS.

After years of working in various professions and web design roles, I can multitask, operate in a fast-paced setting and present information to the audience.

I look forward to being a part of your web development team and working together to develop exciting websites and applications!

Sincerely,

Awa Lin
